25X1A

1. It is requested that [REDACTED]
be amended to read as follows:

25X1A

"(4) Requests by this Agency for deferment of any individual from active military service will be based on two factors: (1) the individual must be destined for duty at an overseas station and scheduled for departure within a reasonable period of time (six months maximum, except in rare cases) and (2) it will be demonstrated by the office requesting deferment that the services of the individual are essential to the successful accomplishment of the CIA mission. Any effort to use Agency deferment privileges for personal reasons, favoritism to either employees or others for any reason than that stated in the foregoing sentence, will result in the instant dismissal from CIA of all concerned in such effort."
